
GNG Foam Conversion

As experienced foam converters we have a vast range of processing capabilities, and are always researching and investing in the latest equipment and techniques, ensuring we can provide you with foam products of almost any shape or size.

We are confident that with our state of the art cutting and contouring machinery and advanced computer aided design we can manufacture exactly what you need. As UK manufacturers we can also provide the best prices for all our customers, offering a bespoke service by listening and responding to your requirements.

Foam is an invaluable solution for a multitude of industries, and is especially important in the bedding, automotive, healthcare and consumer markets. We offer a comprehensive range of foams, which are suitable for a whole variety of applications. All our foam is regularly exposed to rigorous testing to ensure continuous and consistent quality.

With our in depth technical knowledge and lengthy industry experience we are able to advise you on the right solution to your conversion requirements, and we look forward to helping you to create and develop new and innovative products. With this

wealth of knowledge and expertise behind us, we are confident that we also have the best tools and machinery available in order to offer a vast range of custom foam products for a variety of commercial and industrial uses, and we are always seeking new and advanced ways to shape foam in to even more creative and intricate designs.

If you are looking for an individual, bespoke service, with quality foam products at the best possible prices, contact GNG foam conversion and see how we can offer you the perfect solution. With over 35 years of experience in the industry we know how to listen and respond to our customers to ensure complete satisfaction every time.
